MESSAGE FROM CHIEF PATRON

Dr. T. BANUMATHY

I am delighted to announce that the Departments of Electronics and Communication Engineering are organizing a 3rd International Conference on Integrated Sensing and Communication for Next-Generation Networks in Electronics and Communication Engineering, "**ISAC_NGN 2026.**" This event is highly relevant, given the significant role that **Electronics and Communication** engineers play with their innovative thinking and emerging talents.

St. Peter's College of Engineering and Technology is committed to imparting a progressive contribution to the world, which is advancing rapidly in various dimensions to meet the technical and scientific requirements of people across the globe. Hence, it's crucial for students and professionals to reflect on their performance and share their knowledge. Intensive coordination and collaboration are essential for effectively applying technology in real-life scenarios. As the calendar for 2026 fills up with activities and events, I encourage everyone to stay engaged, participate actively, volunteer, and contribute ideas. I am confident that this conference will highlight the importance of sharing innovative ideas through its various events.

I wish **ISAC_NGN-2026** great success and look forward to its impactful outcomes.

CHAIRPERSON

MESSAGE FROM TRUSTEES

Dr. T Namratha

Dr. T Lasya

We are excited to host this 3rd international conference on Integrated Sensing and Communication for Next-Generation Networks in Electronics and Communication Engineering. At St. Peter's College of Engineering and Technology, we are deeply committed to imparting the invaluable wealth of education to our students. Our mission is to develop a socio-economic ecosystem that leads our country towards self-sustenance. The management strives to fortify the teaching and learning systems, intending to position our institution as one of the premier educational establishments in the nation.

This event is a testament to our ongoing commitment to academic excellence and our dedication to staying at the forefront of technological advancements. This reflects our commitment to fostering an atmosphere of innovation, leadership, and the development of interpersonal skills. We consider it our moral obligation to enable our students and participants to face the challenges posed by the new world order. We are delighted to bring together renowned experts, scholars, and industry professionals from around the globe to share their knowledge and insights on recent trends in Electronics and Communication Engineering. This gathering provides a unique platform for the exchange of ideas, collaboration, and the advancement of technology.

We extend our gratitude to all the participants, speakers, and organizing committee members for their contributions to making this conference a success. We hope this event will inspire new ideas, foster meaningful collaborations, and contribute to the ongoing advancements in our field.

MESSAGE FROM SECRETARY

Mr. K. PRABHU

It is with great pride that I extend my best wishes to the organizing committee of the 3rd International Conference on Integrated Sensing and Communication for Next-Generation Networks in Electronics and Communication Engineering at St. Peter's College of Engineering and Technology. This conference provides a vital platform for sharing innovative ideas, research, and developments in our field. By bringing together scholars, professionals, and students, it fosters collaboration and inspires new directions in technology and research.

My sincere thanks to the keynote speakers, presenters, and participants for their valuable contributions and to the organizing team for their dedicated efforts. Let us make the most of this opportunity to connect, learn, and advance together toward a brighter technological future.

MESSAGE FROM PATRON

Dr. S. POORNACHANDRA

It is a matter of great pleasure to convey my warm greetings and best wishes to the organizing committee of the 3rd International Conference on Integrated Sensing and Communication for Next-Generation Networks in Electronics and Communication Engineering (ISAC_NGN 2026). In today's rapidly evolving technological landscape, conferences like ISAC_NGN 2026 play a crucial role in bringing together researchers, academicians, industry professionals, and students to exchange knowledge, present innovative ideas, and discuss emerging trends in Electronics and Communication Engineering. Such platforms are essential for encouraging interdisciplinary research and fostering collaboration that leads to technological advancement and societal development. This conference provides an excellent opportunity for participants to showcase their research contributions, interact with experts, and explore solutions to real-world challenges through advanced communication and sensing technologies.

I appreciate the sincere efforts of the organizing team whose dedication and commitment have made this conference possible. I am confident that this conference will be highly beneficial to all participants and will contribute significantly to the advancement of research and innovation.

I extend my best wishes for the grand success of ISAC_NGN 2026 and hope the conference achieves its intended goals and outcomes.

PRINCIPAL

ABOUT THE INSTITUTION

St. Peter's College of Engineering and Technology is a co-educational college established by Lakshmi Saraswathi Educational Trust in the year 2008. An autonomous Institution, affiliated to Anna University, Chennai. The college aims to impart training to students to develop their intellectual powers, identify and cultivate interest, and train them to become responsible and eminent citizens of India. The institution is spread over a sprawling campus with its calm surroundings, creating a study atmosphere. The invigorative and serene milieu of the institution is conducive to higher education. Our college is accredited by NAAC with A⁺ and is an ISO 9001:2015 certified unit. We have 43 university ranks to our credit.

The college runs the following programme:

- B.Tech.(Artificial Intelligence and Data Science)
- B.E. (Computer Science & Engineering)
- B.E. (Computer Science & Business Systems)
- B.E. (Electronics & Communication Engineering)
- B.E. (Electrical & Electronics Engineering)
- B.E. (Mechanical Engineering)
- B.Tech.(Biotechnology)
- B.Tech.(Chemical Engineering)
- B.Tech.(Information Technology)
- M.B.A.
- M.E. (Computer Science & Engineering)

ABOUT THE DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

The ECE department is dedicated to enhance innovative engineering society, start-up, entrepreneurs and higher study with research. It is enriched with well-equipped laboratories and highly qualified experienced faculty members. The budding engineers from this department are employed in core and software companies in private and government sector. Our alumni are placed in Infosys, Cognizant Technology Solutions, HCL Technologies, TCS and IBM, Accenture Solutions, Amazon, Wipro, Flextronics Technologies, Tech Mahindra, Ericsson India etc. Our student also placed in public sector units like BSNL, ISRO, DRDO, CSIR and NIT Delhi, etc. Many of our students pursue their higher studies in foreign universities in UK, USA and Ireland etc. To receive their MS, MBA and PhD degrees. The ECE department has signed MOU with reputed industries for student Internship and In-plant training, Guest Lecture, Research Seminar. Leadership qualities and knowledge enhancement to students are encouraged by organizing various events through IETE student chapter.

ABOUT THE CONFERENCE

The aim of the conference is to provide a platform where researchers in industry and academia can share their expertise through presentations and discussions in different fields. This conference may play a crucial role in upgrading knowledge, promoting innovation, exchanging ideas and forging collaborations among the participants. The technical program of the conference will include keynote address by eminent people and paper presentations by the participants, which provide valuable insights to both the academic and industry updates in the field of Electronics and Communication Engineering. This conference includes a wide range of topics, including academic disciplines, scientific research, technology, and beyond.

The objectives include the following:

- Facilitate the dissemination of recent scientific advances and emerging trends.
- Provide a platform for networking among professionals, researchers, and academicians.
- Share cutting-edge research and development efforts.
- Encourage interdisciplinary research and innovative solutions.
- Showcase the latest technological advancements and applications.
- Discuss the impact of new technologies on industry practices and future research directions.
- Offer workshops, tutorials, and keynote sessions to improve knowledge and skills.
- Provide opportunities for young researchers and students to present their work and receive feedback.
- Foster collaboration between academic institutions and industry.
- Explore the role of industry-academic partnerships in driving innovation.
- Discuss the role of Electronics and Communication Engineering in achieving sustainable development goals (SDGs).
- Support the publication of high-quality research papers and findings.
- Provide a platform for the global dissemination of research work and innovative ideas.

CONFERENCE PAPER TOPICS (not limited to)

- Integrated Sensing and Communication
- Joint Waveform Design
- Spectrum Management and Coexistence
- 6G and Beyond Technologies
- AI and Machine Learning for Networks
- Edge and Cloud Computing
- Internet Of Things (IoT)
- Vehicular and Aerial Networks
- Localization And Imaging
- Massive MIMO and mmWave
- Optical and Satellite Systems
- Network Security and Privacy
- Energy-Efficient Systems
- Hardware Design and Testbeds
- Smart Grids and Energy Management Systems
- IoT and Industrial Automation
- 5G and Beyond: Communication Technologies
- Artificial Intelligence and Machine Learning in Engineering
- Renewable Energy Technologies and Integration

- Robotics and Autonomous Systems
- Advanced Sensor Networks and Applications
- Embedded Systems and Real-Time Applications
- Nanotechnology and Microelectronics
- Cybersecurity in Communication Networks
- Advanced Signal Processing Techniques
- Quantum Computing and Quantum Communication
- Wireless Power Transfer and Energy Harvesting
- High-Frequency and Microwave Engineering
- VLSI Design and Technology
- Optical and Photonic Communication Systems
- Biomedical Electronics and Wearable Devices
- Advanced Control Systems and Applications
- Vehicular Technology and Smart Transportation Systems
- Sustainable Electronics and Green Technologies

ORGANIZING COMMITTEE

Chief Patrons

Dr. Mrs. T. Banumathi
Chairperson, St. Peter's College of Engineering and Technology, Chennai

Dr. T. Lasya
Trustee, St. Peter's College of Engineering and Technology,
Chennai

Dr. T. Namratha
Trustee, St. Peter's College of Engineering and Technology, Chennai

Mr. K. Prabhu
Secretary, St. Peter's College of Engineering and Technology, Chennai

Patrons

Dr. S. Poornachandra
Principal, St. Peter's College of Engineering and Technology, Chennai

Organizing Chairs

Dr. R. Valarmathi,
HOD/ECE, St. Peter's College of Engineering and Technology, Chennai

Advisory Committee

Mr. M. Gokul,
Senior Executive Engineer, Siemens Energy, Hyderabad.

Dr. K. Padmanabhan,
Managing Director, EVNEXUS-E, Chennai.

Dr. V. Jeyalakshmi,
Prof / Dept. of ECE, Anna University, Chennai.

Dr. K. Chitra,
Prof / SENSE, Deputy Director, VIT, Chennai.

Dr. Knrhan Cengiz,
Professor, College of Information and Technology, University of Fujairah, UAE

Mr. M. Dinesh Balaji
Senior Software Engineer, WIPRO, USA

Technical Committee

Dr. Rabul Hussain Laskar,
Professor/ Dept of ECE, NIT, Silchar, Assam

Dr. Asit Kumar Das
Professor / Dept of CSE, IEST, Shibpur

Dr. M. Baskar
Professor/ Dept of ECE, NIT, Trichy

Dr. A. Swarnalatha
Professor/ Dept. of ECE, Alliance University, Bengaluru.

Dr. D. Meganadhan
Professor/ Dept of ECE, MIT, Chrompet Chennai

Dr. S. Sugumaran
Professor/ Dept of ECE Vishnu Institute of Tech, Andhra Pradesh

Keynote Address

Dr. M. Ghulam Nabi Alsath.,
Deputy Director, Centre for Research, Anna University.

Dr. Edeh Michael Onyema
Dean & Professor, Coal University, Nigeria

Dr. K. Shamganth.,
IEEE Senior Member and Branch Counselor,
Head & Professor, University of Technology and Applied Sciences, IBRA

Organizing Members

Abstract

Pancreatic cancer and associated disorders are usually detected at their later stages, since their early signs and symptoms are minimal or even unnoticeable. This paper proposed a new methodology for early detection based on Digital Image Processing concept. The proposed system follows a structured workflow comprising image acquisition, preprocessing in terms of contrast enhancement and thresholding, and extraction of the Region of Interest. Accordingly, with the extracted values of GAIN, an image is classified as either normal or abnormal in pancreas, with the support of simple machine learning and statistical analysis. GAIN refers to the variance in intensity between normal and affected pancreatic images. By highlighting subtle pixel level variations, the approach enhances detection of pancreatic abnormalities that could easily be missed through visual observation. This technique is cost-effective, non-invasive in nature and can be integrated into any imaging modality, thus supporting clinical practice at every level, from central hubs to peripheral and remote diagnostics. Such a system will be of great help to healthcare professionals by providing speedy and accurate diagnoses, which may lead to better outcomes in pancreatic care.
