

AUTHORS BIOGRAPHY

Dr. Merina Paul Das is currently working as Assistant Professor in the Department of Allied Health Sciences at Vels Institute of Science, Technology & Advanced Studies (VISTAS) Chennai, Tamil Nadu, India. Her Research area is Nanobiotechnology, Environmental Biotechnology. She has 17 years of teaching and research experience. She has Published 63 Research Articles in high-impact reputed Journals Indexed in Web of Science, Scopus. She has presented her research innovations in various National and International Conferences, attended many Faculty Development Programs, Webinars and Workshops. She serves as a potent Reviewer of Journals like Biodegradation, Applied Microbiology and Biotechnology.

Dr. K. Ramya is currently working as Assistant Professor in the Department of Microbiology, Vels Institute of Science, Technology and Advanced Studies (VISTAS), Chennai. She earned her Ph.D. from Anna University, Chennai, specializing in the treatment of Pesticide-Contaminated wastewater. She has Published Several Research papers in reputed International Journals. She has an inventor of a patented process for treating pyrethroid pesticide wastewater using novel halotolerant bacteria. She has received prestigious UGC-BSR Research fellowships for her academic excellence. Through her teaching, Research and Publications, she continues to promote sustainable environmental solutions and scientific innovation.

Dr. Priya S is currently working as Assistant Professor in the Department of Microbiology, Vels Institute of Science, Technology and Advanced Studies (VISTAS), Chennai. She has qualified the ASRB-ICAR-NET in Agricultural Microbiology. She has authored and Co-Authoring Numerous research Articles in high-impact, SCIE and Scopus-indexed International Journals published by Elsevier, MDPI and other reputed publishers. Her work has been widely presented at National and International scientific forums and recognized through multiple best paper awards. She also serves as a reviewer for Springer Nature Journals Contributing to the maintenance of rigorous peer-review standards.

Mrs. Mayurikaa N is currently working as Assistant Professor in the Department of Microbiology, Vels Institute of Science, Technology and Advanced Studies (VISTAS), Chennai. She earned her M.Sc. in Microbiology as a Gold Medalist from the Central University of Tamil Nadu. Her Research Interests include microbiology, Stem Cell Biology, Cancer Biology and Infectious Diseases. Mayurikaa has contributed to several research publications in reputed Scientific Journals. She has presented papers at National and International Conferences and received numerous academic awards. A National-level sports achiever and yoga enthusiast, she combines academic excellence with leadership and personal development.

CONTENT

TITLE	PAGE NO
CHAPTER I INTRODUCTION TO BIOTECHNOLOGY 1.1 History and Development of Biotechnology 1.2 Principles and Scope of Biotechnology 1.3 Branches of Biotechnology 1.4 Applications of Biotechnology in Various Sectors 1.5 Ethical, Legal and Social Issues in Biotechnology	1 - 27
CHAPTER II MOLECULAR BIOLOGY AND GENETIC ENGINEERING 2.1 Structure and Function of DNA and RNA 2.2 Gene Expression and Regulation 2.3 Recombinant DNA Technology 2.4 Gene Cloning and Vector Systems 2.5 CRISPR and Genome Editing Technologies	28 - 64
CHAPTER III INDUSTRIAL AND ENVIRONMENTAL BIOTECHNOLOGY 3.1 Microbial Biotechnology 3.2 Fermentation Technology 3.3 Bioprocess Engineering 3.4 Waste Management and Bioremediation 3.5 Biofuels and Sustainable Biotechnology	65 - 96
CHAPTER IV MEDICAL AND PHARMACEUTICAL BIOTECHNOLOGY 4.1 Biotechnology in Healthcare 4.2 Vaccine Development and Production 4.3 Monoclonal Antibodies and Therapeutic Proteins 4.4 Stem Cell Technology and Regenerative Medicine 4.5 Personalized Medicine and Pharmacogenomics	97 - 122

CHAPTER V

AGRICULTURAL AND EMERGING BIOTECHNOLOGY

- 5.1 Plant Tissue Culture Techniques
- 5.2 Genetically Modified Crops
- 5.3 Agricultural Bio Fertilizers and Bio Pesticides
- 5.4 Nano biotechnology and Synthetic Biology
- 5.5 Future Trends and Innovations in Biotechnology

123 – 163
